

**Workshop: Addiction Medicine in Incarcerated Populations**  
**Saturday, November 4<sup>th</sup>**  
**1:45pm-5:00pm**

Instructors: Jean Bennett, Ph.D., Regional Director, SAMHSA; Mantovani Gay, MD, Medical Director, Chesterfield County Sheriff's Office; Debra O'Beirne, MD, FASAM, Medical Director, Addiction Medicine Services, Fairfax County/Falls Church Community Services Board; and Laura Yager, Director, Correctional Health and Human Services, Fairfax County Sheriff's Office

Abstract: Medication assisted treatment is considered the standard of care for people who use drugs. Yet, this evidence-based treatment is not fully available to those who are incarcerated. This workshop will review the most recent treatment recommendations and the barriers to their implementation.

Educational Goals & Objectives:

1. *Review the evidence-based recommendations for treatment of opioid use disorders in the incarcerated populations.*
2. *Understand the morbidity and mortality risks associated with lack of treatment in people within the criminal justice system.*
3. *Discuss the barriers to implementation of evidence-based treatment in jails and prisons.*

*Coffee Break Mid-way through Afternoon Workshop (15 minutes)*

*3 CME/CEU for Workshop (Pending Approval)*
